About Me

Adaptable developer who owns several **open-source** projects (available at https://github.com/cristicismas) and a proven knowledge of **front-end** and **back-end** technologies. Aiming to leverage my abilities to successfully develop challenging web applications and prove my skills.

I am experienced in **ReactJS**, **Redux**, **NodeJS**, **Express**, and **Django**. I also have a fair bit of experience using **GIT** for version control, and of using different databases (**PostgreSQL**, **MySQL**, **SQLite**, **MongoDB**). I own a **C2 Cambridge Certificate** proving my proficiency in the English language.

Experience

June 2019 - October 2019

TopBudget - *Full Stack Web Developer*

https://topbudget.netlify.com

- Front-end powered by ReactJS, Redux and React-Router.
- Back-end powered by django-rest-framework (DRF).
- Implemented secure token-based authentication.

March 2019 - April 2019

ColourMed Design - *Full Stack Web Developer*

https://www.colormedical.ro

- Front-end powered by ReactJS, Redux and React-Router.
- Back-end powered by NodeJS and Express, querying a MongoDB database.
- Featuring a custom, fully-fledged CMS (Content Management System).

December 2017 - May 2018

ProFotoVideo - *Full Stack Web Developer*

https://www.profotovideo.ro

- Responsible of the development and maintenance of a Django-powered website, which is querying a PostgreSQL database.
- Implemented lazy-loading, resolving performance issues and decreasing user bounce rate.
- Updated Django's CMS to suit the users' needs.
