About Me

Adaptable developer who owns several **open-source projects** (available at *https://github.com/cristicismas*) and a proven knowledge of **front-end** and **back-end** technologies. Aiming to leverage my abilities to successfully develop interesting and useful web applications.

Skills

I am experienced in **SCSS, ReactJS**, **Redux**, **JavaScript, NodeJS**, **Express**, and **Django**.I also have a fair bit of experience using **GIT** for version control, and of using different databases (**PostgreSQL, MySQL, SQLite, MongoDB**). I own a **C2 Cambridge Certificate** proving my proficiency in the English language.

Experience

January 2020 - July 2020
Resume Architect - *Full Stack Web Developer*

https://resume-architect.netlify.app

- Responsible with the development of a resume (CV) builder website.
- Developed functionality to convert resumes from PDF to DOCX files.
- Handled big files using buffers and async file manipulation.

April 2019 - May 2020
ProFotoVideo - *Full Stack Web Developer*

https://www.profotovideo.ro

- Responsible with the development and maintenance of a Django-powered website, which is querying a PostgreSQL database.
- Implemented lazy-loading and automatic thumbnail creation, resolving performance issues and decreasing user bounce rate.
- Customised Django's CMS to suit the admins' needs.

June 2019 - October 2019
TopBudget - *Full Stack Web Developer*

https://topbudget.netlify.app

- Developed the TopBudget web application that helps you manage your expenses.
- Web application focused on UX that uses React on the front-end and django-rest-framework as a restful API.
